el

0..∞

of the el child
; must agree with
NumberOfValuesif this location coincides with
core information, the data
get added together.**QuadraticCoefficients**

QTerms

QuadraticTerm

Attributes

idx

index of the constraint or
objective

idxOne

index of the first variable

idxTwo

index of the second variable

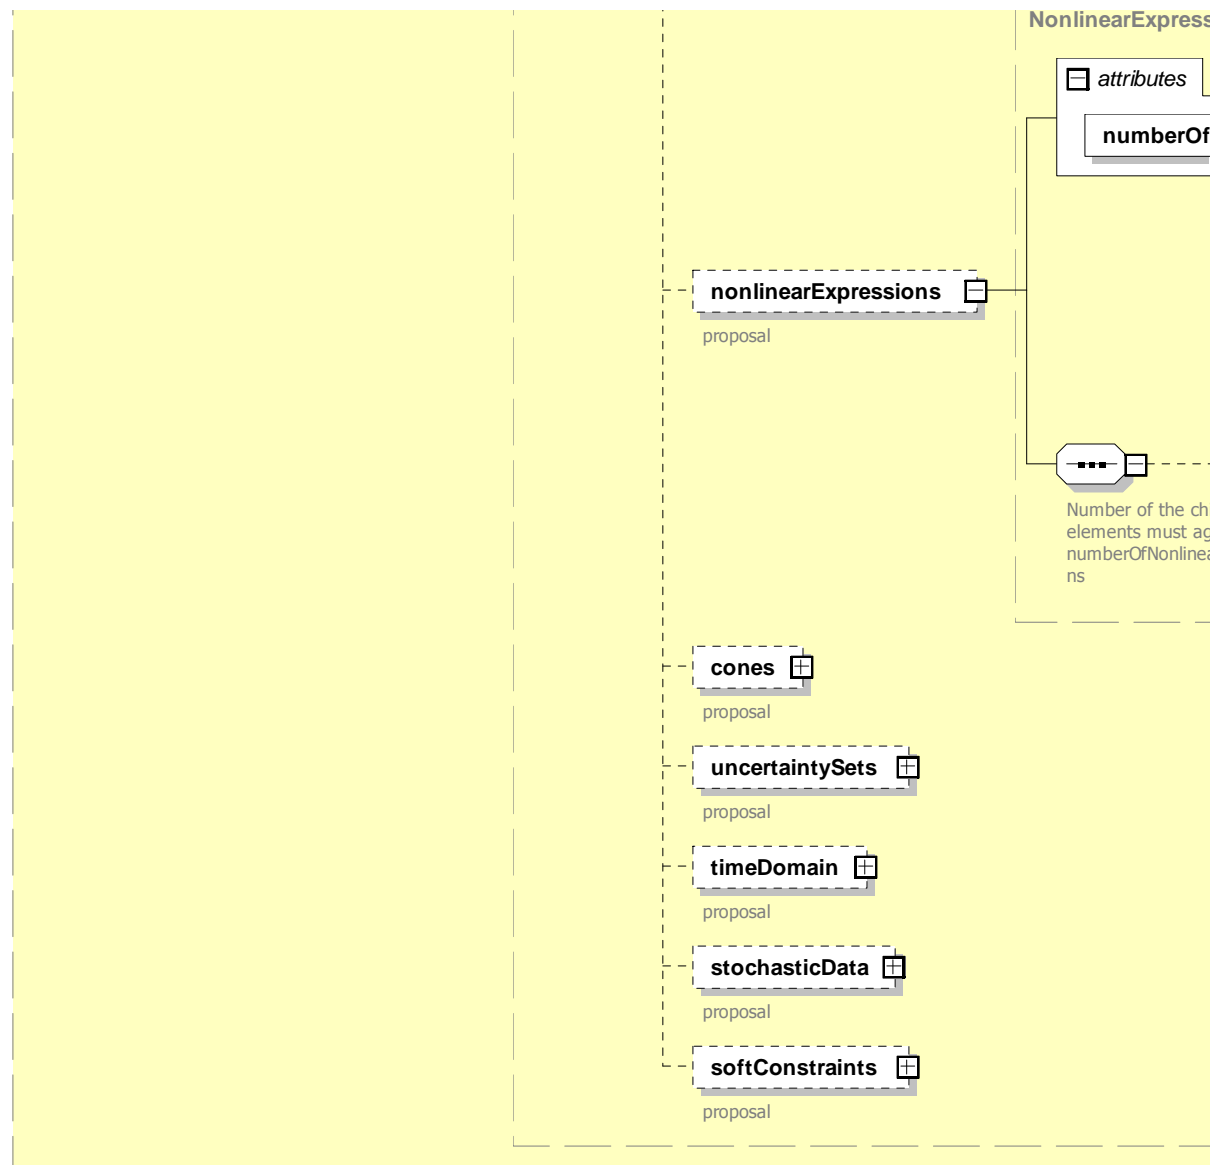

coef

coefficient of the
quadratic term

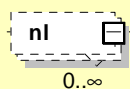

qTerm

0..∞

term child
tree with
QTermsif this location coincides with
core information, the data
get added together.
